

Luis Alberto Guisado

Fullstack Developer | Laravel · React · Python

Remote / Open to Relocation | bethocubans1990@gmail.com | linkedin.com/in/luis-alberto-pushodev | github.com/PushoDev | pushodev.vercel.app

PROFESSIONAL SUMMARY

Fullstack Developer with extensive experience in Laravel, React, and Python (FastAPI/Django). Highly skilled in architecting, developing, and deploying scalable web systems, secure APIs, and responsive dashboards. Proven track record of delivering optimal technical solutions for institutional systems and international freelance clients. Strong focus on clean architecture, performance tuning, and robust backend engineering.

TECHNICAL SKILLS

Core Stack: Laravel, PHP, React, TypeScript, Python, FastAPI, Django, NestJS, MySQL, PostgreSQL, WordPress.

Tools & DevOp: Vue.js, Node.js, Flutter, Firebase, TailwindCSS, Docker, Git, GitHub Actions, Linux, REST APIs, CI/CD.

PROFESSIONAL EXPERIENCE

Software Engineer – Healthcare Information Systems | 2024 – Present

- Designed and architected enterprise-level microservices and tools optimizing medical data workflows.
- Built asynchronous processing pipelines and internal tools ensuring reliable, multi-department process automation.
- Enhanced relational database indexing and response times for mission-critical institutional operations.

Independent Fullstack Developer – Freelance | 2022 – Present

- Engineered and deployed production-ready applications incorporating role-based access control (RBAC) and clean dashboards.
- Standardized frontend layouts utilizing React + TypeScript and integrated robust backend frameworks (Laravel, FastAPI).
- Provided advanced technical advisory and code review for complex academic architectural theses.

Software Developer – Institutional Infrastructure Systems | 2016 – 2024

- Refactored legacy monolithic infrastructure platforms into clean, maintainable web systems.
- Developed and sustained scalable backend solutions supporting high concurrent traffic loads securely.

IT Instructor – Educational Technology Center | 2011 – 2014

- Instructed advanced students in computer science fundamentals, programming logic, and algorithm design.

EDUCATION

Bachelor of Science (B.S.) in Software Engineering – Universidad de Granma | Graduate

Associate Degree in Computer Science / Technical Bachelor – IPI | Graduate
